Introduction

CIOL Qualifications serve both professional linguists, providing the gold standard for translators and interpreters, recognised widely in the UK and around the world, as well as other linguists who may have a different primary role but who use their language(s) on a regular basis in their professional work.

CIOL Qualifications is the only specialist languages awarding organisation in the UK. It offers accredited qualifications at all levels providing routes to qualification for specialist and non-specialist language learners in schools, colleges and universities as well as in business and industry.

The Certificate in Language for Business was first introduced in 2015 and is aimed specifically to satisfy the needs of young people and adults requiring the use of a foreign language in the workplace. It measures communicative competence and the ability to deliver practical work-related tasks using a foreign language.

This qualification develops a learner's ability to communicate effectively using speaking, listening, reading, and writing skills in a foreign language in the workplace.

Regulation

The award is recognised by the Office of Qualifications and Examinations Regulation (Ofqual) and the Council for Curriculum, Examinations and Assessment (CCEA).

CIOL Qualifications Recognition Number RN5145.
